Unlock Your Future: Streamlined Inquiries for Smarter Choices!

Problem Statement: Develop a web-based platform to streamline and manage student inquiries in educational institutions. This system should facilitate efficient communication between students and administration, allowing for tracking, categorizing, and responding to inquiries in a timely manner.

USP'S OF STUDENT LOGIN:

- Efficient Inquiry System: A streamlined platform for students to easily submit and track inquiries.
- College Health Score: Get insights into the overall health and quality of colleges
- College Search AI Bot: An AI-driven bot for personalized college search recommendations based on your preferences.
- Virtual Counselling: A video calling feature to connect with counsellors of college for better understanding.
- Real-Time Inquiry Status Updates: Keep track of the progress of your inquiry with real-time status updates.
- Virtual Campus Tour Tool: Explore college campuses virtually to get a feel of the environment
- Recommendation Tools:
 - College Drive: A tool to explore college options in-depth.
 - College Comparison: Compare colleges based on various criteria like courses, fees, and ratings.
- Chrome Browser Extension: A extension for student to receive updates.

USP'S OF COLLEGE LOGIN:

- **Efficient Inquiry Management System:** A streamlined system to manage all inquiries from multiple students in one place.
- **Real-Time Inquiry Status Tracking:** Track the status of each inquiry with real-time updates, ensuring no inquiry goes unnoticed.
- **Scholarship AI Bot:** Utilize an AI bot to assist in providing personalized scholarship recommendations based on student profiles.
- **Counseling Session Management:** Accept, reject, or reschedule counseling sessions.
- **Mass Email Sender:** Integrated mass email sending capabilities to communicate with multiple students effectively.
- **Inquiry Metrics Dashboard:** Access metrics related to college inquiries.
- **One-to-One Chat:** Enable direct communication between college representatives and students through a one-to-one chat system.
- **Real-Time Updates:** Stay informed with real-time updates on inquiry responses, session scheduling, and student interactions.
